

Welcome to PBCB:

We all have been through a very long year. You have probably had to cancel or reschedule many plans and vacations and have missed out on the things you usually do. Being cooped up in a house, home schooling your children, missing going out to restaurants, and just wondering when it will all end has taken its toll. We hope that you and your family have been able to avoid COVID-19 and that you have not lost a loved one or friend to the virus. If so, we want you to know you have our deepest sympathy.

PBCB weathered the virus last summer, our staff has remained virus-free, and we are happy to report that all senior staff have been vaccinated!

Now that Massachusetts is fully open, we will still be following the guidelines recommended by the CDC, the State, and the local Department of Health. Waivers and screening forms will be required for those who participate in our programs or stay in our cottages. Our daily cleaning and sanitizing efforts will also continue in order to operate on the safe side.

We are all trying to adjust to the “new normal” and the ever-changing guidelines, so please be patient. We hope that our plans, as they are implemented and adjusted, are not intrusive and that your experience at PBCB this summer, whether as a camper, sailor, or both is rewarding and, above all, fun.

Given the times we are in, we, at PBCB, are aware that being out on the water and enjoying nature can be restorative and uplifting. We look forward to seeing you all this summer and providing the wonderful experience of sailing on Pleasant Bay. Come and be a part of it!

See you soon,

PBCB Staff
